The New Mexico (NM) Recreational Trails Program (RTP) is a federal reimbursement program funded through the Moving Ahead for Progress in the 21st Century Act (MAP-21) enacted July 1, 2012, as codified in 23 U.S.C. 206 and continues under section 1109 of the FAST Act, signed into law in December of 2015.

The RTP provides funding authority to the states to develop and maintain recreational trails and trail related facilities for both non-motorized and motorized recreational trail uses. Examples of trail uses include hiking, bicycling, in-line skating, equestrian use, cross-country skiing, snowmobiling, off-road motorcycling, all-terrain vehicle riding, four-wheel driving, or using other off-road motorized vehicles.

The goals of the NM RTP are to:

1. Improve the health and quality of life for New Mexicans by increasing trail-related recreational opportunities within and around communities.
2. Provide funding through a transparent, accessible program to communities and government agencies for the development of recreational trails and related educational programs for a variety of users.
3. Fund projects that result in "on-the-ground" benefits to users.
4. Meet the federal requirements regarding expenditure of 30% of funds on non-motorized trails, 30% on motorized trails and 40% on diversified trails.

**In New Mexico, the estimated set aside of RTP funding amount for FFY18 and FFY19 is \$1,356,910 each year.**

30% of funds must be used for non-motorized trails (Cat.1&2) NM Estimate = \$407,073 each year  
30% for motorized trails (Cat. 4&5) NM Estimate = \$407,073 each year  
40% for diverse-use trails (Cat. 2, 3&5) NM Estimate = \$542,764 each year
